

3L Electrical **Company** **Profile**

Mission Statement

*"To light the way
for family and businesses
in need of lighting. "*

About our Company

Three L Electrical was founded in 2020 by Luke Manto, a trade tested electrician. Luke Manto is a certified Electrician who served his apprenticeship at EThekwini municipality, he then worked for the EThekwini municipality as a MV/LV Electrician.

He is competent to work with voltages from 0v-11000v and is proficient at underground main cabling, as well as installing overhead mainlines.

Luke previously ran a company named Credo Electrical which has done major projects such PX7 container terminal, PX5 container terminal, Sappi saicor skills centre, The Bluff medical centre just to name a few.

Our Vision

Our vision for 3L Electrical is to broaden our works to the outer skirts of Africa and ultimately internationally.

We would like to train other young South Africans and teach them the skills they need to be financially stable, While providing them with the correct tools to achieve their dreams.
